

Foal Wellness:

Just like any other baby animal, foals require a special series of vaccines and deworming in order to ensure they have the healthiest start to life as possible.

Check out the table below for our recommendations on wellness care for foals and weanlings 

	2 Months	4-6 Months	5-7 Months	8-10 Months	10-12 Months
Deworm	✓ (Fenbendazole Product)	✓ (Fenbendazole Product)		✓ (Ivermectin & Praziquantel Product)	✓ (Ivermectin Product)
EWT/West Nile Vaccine		✓	✓		✓
Flu/Rhino Vaccine		✓	✓		✓
Rabies Vaccine		✓	✓		✓

Speak to your veterinarian about additional risk based vaccines for your foal or weanling
